NEWBORN SESSION INFO

WHEN TO BOOK

The best time to book your newborn session is before your baby's birth so that I can keep my schedule available. I prefer to photograph newborns in their first 10 days of life, though I will happily work with older babies as well.

TIPS FOR SUCCESS

- Turn your heat up to 78 degrees an hour prior to our session.
- Give baby a bath an hour prior to our session.
- Loosen or remove your baby's diaper 20 minutes prior to our session.
- Feed baby just before I arrive.

WHAT IS A SESSION LIKE?

Newborn sessions take place in the comfort of your home and last 2-3 hours. We will take breaks as needed to feed and comfort your baby and I try to keep our time together as stress-free as possible.

I bring everything I need to create beautiful portraits including several blankets and gender appropriate props. If you have a special item or prop you'd like me to use please let me know.

I am happy to include some photos of the newborn with immediate family members but the focus will be on your newborn. If you have specific requests please let me know prior to your session so we can make it happen!

BABY SESSION INFO

PRE-SITTING BABIES (1-6 months)

At this stage it is fun to photograph babies as they start to discover the world around them.

SITTING BABIES (5-8 months)

A fabulous age for portraits is when your baby is sitting but not quite mobile.

FIRST BIRTHDAY (12 months)

A first birthday is an important milestone to document. Bring special birthday props or a special outfit and we'll celebrate!

TODDLER (12-24 months)

Your vivacious toddler is almost always best photographed outdoors where they have the freedom to explore.

WHAT IS A SESSION LIKE?

Baby sessions can take place either outdoors or indoors with my portable studio set up. If you're not sure of a good location just let me know what you're thinking of and I'll likely have a suggestion. You may be surprised by what makes a good location!

Outdoor photo sessions take place in the morning, late afternoon, or two hours before sunset. You know your baby best and I ask that you schedule a time that they are usually happy. The best lighting in the world won't help a crabby baby smile!

Indoor sessions can be done at any time of day.

WHAT TO WEAR: BABY STYLE

The most important thing to remember when choosing what your child will wear for portraits is comfort and fit. If your child is not comfortable wearing what you have painstakingly selected for him it may very likely show up in his grumpy face during our session together. Don't be afraid of bold colors and patterns, they can really make your child pop! Feel free to bring more than one outfit change for our session together, and if you're really feeling lost bring several and I'll help you choose what will photograph best.

Please avoid tee shirts with characters, logos, or lettering on them (unless they are super duper to die for cute!). Newborns look best in their birthday suit and older babies can look absolutely adorable wearing nothing but their diaper. Please be careful with overalls and collared shirts with non-sitting babies as they often ride up and obstruct your baby's face.

Don't forget about accessories! Fun cloth diapers or diaper covers, hair pretties for little girls, and hats are all nice touches.

I have a long list of favorite baby clothes companies that I recommend, here's just a few: Baby Gap, Janie & Jack, Matilda Jane, Mini Boden, and Hanna Andersson
